STRATEGY: <u>Goal 2, Strategy 1&2: Integrate Care throughout the Lifetime& Enhance the Behavioral Health Workforce</u>

Below are responses from a brainstorming and discussion activity that this respective strategy group detailed at the last SHIP Coalition Event in March, 2015. Using them as a reference, provide new responses to each updated (bold) question that follows in the space below (use the backside if needed).

Then: Ways that coalition members can support the implementation of this strategy's objectives:
- *Build and strengthen communities* - *SHIP- collaborate with SIM → consolidation, integration* - *→And other community groups statewide plans – Center for Disability Studies*
Now: Looking back, what road blocks or barriers did your group encounter in achieving the above strategies? (Those new to the group: are these barriers different than what you would have anticipated?)
- - -
Then: What challenges exist specific to the implementation of this strategy's objectives:
- *Psychiatrists involved in EHR implementation – small practice (affordability of systems & staff)* - *Identify EHRs that are affiliated with DHIN (DE Health Info Net.) → 42 CFR: substance use info protected* *Other: Payment model for integration; Completion vs. collaboration; Transition of youth to adult system*
Now: Looking back, what "detours" or strategies did your group take to overcome these challenges? (Those new to the group: Can you suggest any new strategies to address these challenges?)
- - -
Then: Ways the above challenges can be addressed or overcome:
- *Utilization of federal incentives* - *Best practice- Arizona- around incorporation of behavioral health in DHIN*
From THEN Until NOW: What are the lessons learned that can support development of more efficient road maps for planning and implementation in the future? (Those new to the group: Can your own professional experience shine a light on additional means of resources and support?)
- - -

STRATEGY: _____Goal 2, Strategy 3: Improve Early Detection and Prevention_____ _____

Below are responses from a brainstorming and discussion activity that this respective strategy group detailed at the last SHIP Coalition Event in March, 2015. Using them as a reference, provide new responses to each updated (bold) question that follows in the space below (use the backside if needed).

Then: Ways that coalition members can support the implementation of this strategy's objectives:
- Determine well researched screening instruments and processes (i.e., what is validated?) *- Engage providers to meet needs of the populations they serve/ develop comprehensive list of resources* *- Identify infrastructure needed for training assistance/ identify clear pathways for referral*
Now: Looking back, what road blocks or barriers did your group encounter in achieving the above strategies? (Those new to the group: are these barriers different than what you would have anticipated?)
-   -   -
Then: What challenges exist specific to the implementation of this strategy's objectives:
- Competition of existing tools *- Various 1st/2nd/3rd level interventionists need different training* *- Sensitivity of information creates many more barriers: stigma/rigorous consent for children… etc.*
Now: Looking back, what "detours" or strategies did your group take to overcome these challenges? (Those new to the group: Can you suggest any new strategies to address these challenges?)
-   -   -
Then: Ways the above challenges can be addressed or overcome:
- Prepare the system to handle the volume → protocols for different levels of screening/clear roles *- Anticipatory guidelines across lifespan (i.e., not everything needs to go to a next step)* *- Partnerships with various existing screeners throughout the state* *- Pathways to support various providers (i.e., reimbursement, education, advocacy.. etc..)*
From THEN Until NOW: What are the lessons learned that can support development of more efficient road maps for planning and implementation in the future? (Those new to the group: Can your own professional experience shine a light on additional means of resources and support?)

STRATEGY: _____Goal 2, Strategy 4: Increase Awareness of Mental Health Issues_____

Below are responses from a brainstorming and discussion activity that this respective strategy group detailed at the last SHIP Coalition Event in March, 2015. Using them as a reference, provide new responses to each updated (bold) question that follows in the space below (use the backside if needed).

Then: Ways that coalition members can support the implementation of this strategy's objectives:
- *Understand past successes and challenges → lessons learned → key informant interviews (DSAMH)* - *Work on language use (i.e., substance use disorder)* - *Leverage existing efforts/resources* -*Divert people who may be in corrections due to mental health to the proper services → awareness in the judicial system → awareness in key stakeholders: community supports*
Now: Looking back, what road blocks or barriers did your group encounter in achieving the above strategies? (Those new to the group: are these barriers different than what you would have anticipated?)
-   -   -
Then: What challenges exist specific to the implementation of this strategy's objectives:
- *Can't promote awareness about resources that don't exist (i.e., housing)* - *Support systems have to work together and buy into the same lenses (how to mobilize resources)*
Now: Looking back, what "detours" or strategies did your group take to overcome these challenges? (Those new to the group: Can you suggest any new strategies to address these challenges?)
-   -   -
Then: Ways the above challenges can be addressed or overcome:
- *Break down silos → use consistent language* - *Enhance community strategies between agencies to maintain collective impact* - *Understand all of the roles across the state that can impact our cause*
From THEN Until NOW: What are the lessons learned that can support development of more efficient road maps for planning and implementation in the future? (Those new to the group: Can your own professional experience shine a light on additional means of resources and support?)
